

COURSE CARD: E3S - DK - UNICOP - 9

University: University of Copenhagen, Denmark

Course: Phd course in Sensory Science

Course code: LPhD098

Credits: 9 (12) ECTS

Language: English

Instructor: Wender Bredie, professor.

When: When requested. Normally every year in spring

Content: The course involves a critical assessment of course literature, a literature study with a written report on a specific sensory topic with some relation to the student's PhD project. Participation in the sensory research seminars forms is also a part of the course. The basic course is 9 ECTS and additional 3 ECTS can be obtained by performing specific sensory and/or data analytical exercises, e.g. in relation to the student's own research project. For more information, please go to: <http://phdcourses.life.ku.dk/course/LPhD098>

Textbook: The course materials contain several chapters from Lawless and Heymann (2010) and a number of selected advanced readings by the teachers.

Requirements: Master degree (MSc).

For whom: Phd students

Students (n): Approximately 5-10 students
