

COURSE CARD: E3S - FI - UNIHEL - 2

University: University of Helsinki, Finland

Course: Supervised research

Course code: ETT460 (this is the University Course Code)

Credits: 1-6

Language: Finnish, Swedish or English

Instructor: Hely Tuorila, professor

When: As agreed: every year, spring or fall term

Content: 1) Students can earn 1 or 2 credits by participation in sensory tests as subjects, by writing a report of their participation experiences
2) Students can earn credits by writing a report of their own project (ETT230) in a professional magazine, in supervised conditions; such a report can also be published as an original paper (has happened once)
3) Students can earn credits as research assistants in sensory lab, and by writing a report of their participation

Textbook: None

Requirements: Basic knowledge of sensory research methods (in Helsinki, the course ETT230)

For whom: 1) any majors, at any level of education
2) and 3) Students who have completed ETT230 course

Students (n): Varies
